BY ATLANTIC CABLE

PARIS Nov 30 —The session of the Senate and Corps Legislatif was reopened with great ceremony by the Emperor who delivered an open ing speech from the throne It was hoped the Empress might possibly return in time to take part but she has not yet reached Paris The Emperor said It is not easy to establish regular peaceful liberty in France For months past society seemed to be menaced by subservient passions and freedom compromised by the excesses of the press and public assemblages But common sense has already properly judged these culpable exaggerations which after all served but to prove the solidity of the office founded by popular suffrage But his uncertainty and trouble must last no longer The will of the people must be made known, and France wants liberty with order I answer for her help me by measures to secure liberty Between those who would change all and those who would grant nothing a glorious course may be chosen

The Emperor then referred to the Senatus Consultum of September last, which he said he had deposed with the purpose of inaugurating a new era of conciliation and progress It was always the task of the Chambers to aid him in carrying out the plan He proceeded to enumerate municipal reforms which will be made. He pronounced the situation of the country satisfactory, and declared moreover that he was ready to grant reforms more decided He would maintain the principles of the constitution The relations of France with foreign powers were friendly Sovereign and people are desirous of peace

The Emperor continued as follows We have reason to be proud of our epoch The new world suppresses slavery Russia frees the serf, England renders justice to Ireland Bishops are meeting at Rome for wise and conciliatory purposes progress and science draw nations closer to each other while America unites the Atlantic and the Pacific Everywhere capital and intelligence combine to connect by electric wires all the nations France and Italy will soon be joined by a tunnel through the Alps The Suez canal has already united the Mediterranean and Red seas The Empress was not present because I desired her to testify the sympathy of France with the wonderful genius and perseverance of a Frenchman The Emperor concluded with the following word Measures you resume your labors after an unusual interruption of the session I hope the bodies will apply legally the modifications lately made in the constitution These is to be more direct participation of the nation in its own affairs This will be a new force for the empire May the Chambers prove that, without falling into excess France can support free institutions which honor a civilized nation

The Journal officiel this evening praises the Emperor's speech The opposition press complains that the Emperor does not promise the reforms France needs

The following is a synopsis of reform promised in the Emperor's speech The Mayors to be chosen by the municipalities Municipal authorities are to be elected by universal suffrage communal councils to be established and fresh prerogatives to be granted to conseil guerneux the colonies to participate in the movement universal suffrage to be extended a more rapid development of primary education diminution of costs of justice and reduction of the war tax on succession the Savings Bank system to be extended more humane regulations to be made regarding the labor of children increase of small salaries in public offices and useful measures connected with agriculture and free and an inquiry into the system and also a project of a law regarding customs duties

It is again rumored that Thiers Ollivier Emigrant Segris has resigned

BERLIN Nov 30 —Count Goltz an envoy Prussian at Rome died on day aged 7

The Indian Empress Eugenie French colonies says whatever division of opinion may weaken the members of the opposition in the Corps Legislatif they should more together to overthrow the men who brought her movement into discredit The ex ministers compromise with passive retirements and personal rules Possibly the appointed ministers may be still at the head but the Emperor is accustomed to look upon his power as but the odds of a hundred to one For many years he practically ruled the Chambers was compliant only to Napoleon and our others a fact a reason opposition now vote The Imperialist opposition is already untenable

The London Telegraph says Napoleon's speech is liberal in its promises and tone If he does not comply with the demands of the party he left there is come a new series of liberal reforms all of retrograde

OUR SAN FRANCISCO DISPATCH

SAN FRANCISCO Dec The regular freight train of the San Francisco and San Jose Railroad which left this morning ran into a hand full of cars near Bell House Station by which the engine the track was torn up the uncoupling and for a hundred yards dragging the car with it Two men were killed and many badly damaged and Edward Ryan brakeman had a leg broken A relief train was immediately sent down and the debris cleared away causing the passenger train from San Jose only a slight detention Had the train been running at high rate of speed the accident would have been shocking Some of the train and the accident avoided The company's late hall was been of service during the public and it has so far as the speed and time of the trains was concerned he beyond orders

FINANCIAL AND INDUSTRIAL ITEMS.

The Macon Telegraph says that lands in Georgia have advanced on an average, not much short of 300 per cent. in the last two years.

The total gain for the first quarter of the present administration was exactly $21,387,515 07 as compared with the first quarter of the preceding year This is a solid fact which gives a host of ingenious arguments

The New York Express says there is a project on foot in that city to start a bank, with $20,000,000 capital for the sole purpose of discounting business It is stated that some German capitalists will willingly subscribe $5,000,000 to the capital stock of such a bank.

A correspondent of the New York Tribune writing from Frankfort, states that there is a good deal of discussion on the Kentucky debt question upon Secretary Boutwells' last letter, and his expectation of being able to fund the national debt into a 4½ per cent. long term The general impression is that it will be funded under five per cent The many wealthy capitalists who own railroad bonds and the stock offered by American railroads now building have a tendency to keep up the high rate of currency

The Missouri Democrat ponders that all plans of gradual resumption only increase the difficulty and the loss; that if the Secretary will announce a decision awarding the Legal Tender not but allowing all contracts made during the greenback era to be paid in the currency in which they were incurred, or if paid in gold then in as much gold as the currency called for by the contract is worth, the sooner we get the change and return to a specie basis the better. The effect of all gradual plans would be that the farmer would hire and plant at currency prices, and, when they come to sell their crops, would sell at gold prices, which would not pay expenses

The present consumption of wood in the United States is enormous. It is stated that one hundred and fifty thousand acres of the best timber is cut every year to supply the demand for railway sleepers alone. For railroad buildings, repairs, and cars the annual expenditure is said is thirty eight millions of dollars The single year the locomotives in the United States consumed 24,000,000 dry six millions of dollars' worth of wood. There are in the whole country more than four hundred thousand artificers in wood; and, if the value of their labor is one thousand dollars a year, the wood industry of the country employs in the amount of nearly two hundred millions of dollars Lumber in Europe is getting scarce, and in the East India provinces, the Governments have found it necessary to interfere, and either plant trees or compel the roads with a timber fuel in order to obviate the evils of scarcity The denudation of the north of its original covering of timber

FOREIGN NOTES.

The Turkish Government has at last obtained the concession of allowing commercial ships to leave the Bosphorus and the Dardanelles at night. But it does not allow them to enter after dark.

Here is a fresh arm against drunkenness It is proposed in France to procure the passage of a law classing debts contracted at a bar or drinking room in the same category as gambling debts

Englishmen, residents in Bristol, are just now exercised concerning the birth place of the great navigator Sebastian Cabot, and a strong effort is apparent to make him out an Englishman—in all which a painstaking antiquarian, the city librarian, Mr. J. J. Nicholls, is chiefly prominent.

The New Dominion on our northern border is getting into debt with a facility almost equal to ourselves notwithstanding there is peace in all her borders. At the beginning of the Confederation two years ago, the Dominion debt was something like $77,500,000 Since the Dominion Government has been in existence, the debt has increased by something between thirty and fifty millions of dollars, besides which large sums have been voted for the erection of new fortifications and the strengthening of old ones.

An ice and cold-producing machine has been invented by P Windham, Brattleboro, Vermont The action of the machine is based on the principle of producing cold and warmth by the expansion and compression of atmospheric air, which is accomplished by means of a steam engine power The machine requires but 2 pounds of anthracite—nothing being used in them but water and atmosphere air. They produce from 150 pounds to 1 000 pounds of ice per hour, according to the size at a cost of from 2d. to 5d. per 100 pounds.

As showing the great depression at present in the English cotton manufactures, it was stated in a meeting lately held for the consideration of the subject in Lancaster that a mill which has been exposed for sale at a upset bid of $1,750,000 in gold only one-third in effecting an offer of $500 000 There has been, during the past few years an increase of six and a half per cent. in coal pauperism, and a decrease of thirty-three per cent. in the extent of trade. A single New Yorker house had imported millcoons to the value of $400 000 in gold in one year, of northern manufacture and the influx of prosperities of the French cotton mills were daily on the increase It is this state of things which is reviving the agitation for protective duties

"SMALL SIDE OF CONGRESS"—Mr Parton has a very readable article under this title in the Atlantic and Mr Parton is always readable But he has often been called to account for inaccuracy as any writer is likely to be whose pen is so industrious Hon J D Baldwin, Congressman from Massachusetts and editor of the Worcester Spy a man of rare purity as well as scrupulous correctness—points out, that while Mr Parton is partly right he has fallen into some strange mistakes For instance, he says

Will the honorable member from Ohio allow me five minutes to make an explanation?" If the request is granted it costs the people of the United States $500 And again "Calling the ayes and noes an operation of half an hour comes to over $4 000

The absurdity of which is shown by the fact members of Congress are not now paid by the per diem but by the year so that whether the session is long or short it makes no difference to the public treasury though it may to the pockets of the members Mr Baldwin also says that before a certain small allowance, no member of the house now receives stationery without paying for it though the clerk is required by law to keep on hand a supply of stationery etc which he purchases with money from the Contingent Fund and furnishes to the members, keeping an account with each and collecting from each what is overdrawn beyond the legal allowance But the people generally will never see this correction and will persist in the belief that every representative they send to Washington supplies all his relatives and his wife's relatives with paper penknives and portemonnaies

The principal occupation of the girls of the period is said to be to sit at the window and watch for the coming man

The Daily Oregonian.

THURSDAY MORNING DECEMBER 2 1869

The New Era

It will be remembered that the Freedmen's Bureau so far as its organization as a physical and material help to the colored race and white refugees was discontinued expired by limitation at the last December Until its educational work and bounty claim business for colored soldiers was continued by the same law which terminated its material functions No appropriations have been made for it since the winter of 1867, and its philanthropic work of educating the children of the freedmen is now carried on by contributions and by the balances husbanded from former appropriations and realized from the rental of Bureau buildings and the sale of abandoned property In all other matters the Bureau is a thing of the past but it still lives in this shape to do its part in removing the reproach of ignorance among the children of the South, and in protecting the colored soldier in the receipt of the bounty which Congress has said is justly his due General Howard, who still remains Commissioner, recently issued his annual report, which contains a large mass of interesting facts and observations Speaking retrospectively of the work of the Bureau, he says

It has not been a pauperizing agency It has not encouraged idleness and vagrancy It has not existed for the benefit of able bodied beggars The wonder is not that so many but that so few have needed help; that of the four millions of people thrown suddenly upon their own resources only one in about two hundred has been an object of public charity, and nearly all who have received aid have been persons who, by reason of age, infirmity or disease, would be objects of charity in any State and at any time

General Howard recounts the efforts made by the Bureau to secure employment for the freedmen, and to encourage them to labor faithfully by compelling an observation of contracts on both sides Much testimony is produced which shows the success that has attended these efforts He adds

To the oft repeated slander that the negroes will not work and are incapable of taking care of themselves, it is a sufficient answer that their voluntary labor has produced nearly all the food that has supported the whole people, besides a large amount of rice, sugar and tobacco for export, and two millions of bales of cotton each year, on which was paid into the United States Treasury during the years of 1865 and 1867 a tax of more than forty millions of dollars. It is not claimed that this result is wholly due to the care and oversight of this Bureau, but it is safe to say, as it has been said repeatedly by intelligent Southern men, that without the Bureau or some similar agency, the national interests of the country would have greatly suffered, and the Government would have lost a far greater amount than has been expended in its maintenance.

The exhibits made in the report as to the progress of education among the blacks present many cheering features. A Superintendent of Schools has been appointed for each State and the work is thoroughly organized. During the year ending last July, the official reports gave 3,118 schools, 2,445 teachers, and over 250,000 pupils It will thus be seen that the work is a most extensive and important one. Over $200,000 was contributed during the year for the support of the schools by the blacks themselves. Large sums are steadily contributed by religious and other societies in the Northern States for the support of the work. Gratifying progress is making in instructing both children and adults in the rudiments of knowledge. Some of the churches in the South are also lending their aid in the education of the colored race, and the Catholics in particular are endeavoring to organize a general system for the purpose on their own account. Thus we see that the work of enlightening the minds of a people whom a few years ago it was a penal offence to teach, is going on most encouragingly. And thus four millions of people are emerging from the barbarism of the slave-driving era into the light and civilization of freedom.

The Next Acquisition.

We suppose it is settled that San Domingo is to become a part of the United States very soon, because it has all been arranged by the "specials" who kindly attend to such things for us. How far recent reports as to annexation are to be relied on, no one can as yet safely guess; and, although Eastern journals have gone so far as to publish a full statement of the terms on which annexation is to be effected, the whole thing may after all be only in an inchoate condition. Negotiations, however, were begun a good while ago by Mr. Seward for the transfer of the Bay of Samana to the United States, and as these negotiations have been continued by his successor, it is not improbable that the present report may have a very good foundation. No doubt the President's message, soon to appear, will make the state of the case fully known.

The Dominicans are sadly demoralized in every way, and their desire for annexation to the United States proceeds mainly from the fact that their present government is in a deplorable condition Many of them think the easiest way out of their difficulties would be to make an absolute transfer to the United States. It cannot be doubted that the acquisition would be a great advantage to our commercial marine in the West Indies; and in the event of trouble with any foreign power it would be of inestimable value for our ships of war. But before the transfer is effected the wishes of the people of the island in regard to it are to be obtained, and even then the whole negotiation may fail, for with such a turbulent population, distracted with internal feuds, the government of the island may not be able to carry out its own agreements without help San Domingo itself would be a very desirable acquisition for the United States, but such a class of people as inhabit there would not, we fear, bring much addition to the fame and glory of our country

In General

Reports from nearly all parts of the State indicate that it is much easier to collect taxes this year than usual, because money is more abundant. So it appears that the locking up of that "immense sum" in the State Treasury which was going to bankrupt us all, has not produced quite the effects that were predicted. The people of Oregon will probably be able to keep the wolf away from their doors for a while longer

The important announcement is made in the *Oregon Herald* that "There is every prospect that the infernal Fifteenth Amendment will be defeated." This astonishing result is figured up by failing to count Alabama which ratified it a few days ago, and by assuming that New York will withdraw the assent she has already given And thus the *Herald* continues to plod along behind the march of events, and to predict the failure of a thing which everybody knows already is virtually accomplished

Gold continues to tumble, and everybody's prophecies are at fault The decline is so considerable that it really begins to offer encouragement for the resumption of specie payments within a period not very remote If gold can be made to stand at somewhere in its present figures for a time values will quickly adjust themselves to it without very serious losses to the business of the country and then everybody could get ready for a still further decline But the success of such a policy as this must depend to a great extent on Treasury management At present it seems not to be known whether the Secretary intends to pursue a slow policy like this, in which he is friends to try the policy of forcing gold up as soon as possible

And now again come the Democracy preening themselves This time it is New York Democrats who are going to give the "show" The telegraph states that leading men of the party there will attempt to recall the vote of that State for the Fifteenth Amendment Most Legislatures were informed, however, that they could do nothing of the kind Now, it is proposed to enact the same farce in New York The Democratic politician is a pig-headed individual who never learns anything Though he has brought up repeatedly against a solid stone wall, he continues to run blindly against it Is there any wonder that a party so led has dwindled to a factious minority

The Boston *Journal* says that an accurate statement of the bequests of George Peabody has never been published, and gives the following as an approach to correctness For Institute at Danvers, $200,000, Peabody Museum at Salem, $150,000, Newburyport, for a library, $30 000, Memorial Church, in Georgetown, Mass, to the memory of his mother, and free public library at same place, $100,000, Phillips Academy, Andover, $30,000, Massachusetts Historical Society, $20,000 Havard College, for Museum and Professorship of American Archæology and Ethnology $150,000, Yale College, for Museum and Natural History, $150,000, Peabody Institute at Baltimore, $1,000,000, Maryland Historical Society, $20,000; Kenyon College, $25,000, Public Library at Post Mills, Thetford, Vt, $10,000, Southern Educational Fund, $3,000,000, London poor, $1,750,000, his kindred, $1,500,000, and many smaller donations."

OREGON.

There was a slight fall of snow at McMinnville last Saturday. It did not whiten the ground.

Snow in the summit of the Blue mountains is two and a half feet deep Weather is still mild

The *Sentinel* published at La Grande, will here after be conducted by M H Abbott, who has been somewhat known in connection with newspaper enterprises in Wallamet valley.

Powder River Valley has 6,000 acres under cultivation, 4,000 population, 5,000 cattle, 1,500 sheep, 5,000 hogs, one flour mill, four sawmills, has been settled six years, and has room for as many more

Rev Neill Johnson, of McMinnville, has shown the editor of the *Blade* twenty pounds of potatoes which were produced from two "eyes," The largest of the lot weighed a little over three pounds, and the smallest not less than one half pound

A letter from Ochoco valley opposes the mail route from Albany over the Cascade mountains to that place, and says the mails should come by way of Dalles. It will be impossible to cross the mountains in winter on the route from Albany, except on snow shoes.

The La Grande paper says The late quartz discoveries in Rye Valley are creating considerable excitement—several ledges having been found that prospect exceedingly well. The one known as the "Monumental" ledge assays fabulously, and if the rock continues so rich as it now is, it will be the most valuable ever discovered. Some of the ore is pure, no rock or other metals being intermixed—and a printed receipt from an assay office in Boise City, shows that the rock assayed $9,091 00 to the ton Other discoveries will occur before many days as there are many prospectors out

A letter to the *Mountaineer* from Camp Horney, dated November 17th, says: The celebrated Piute and Snake Indian council has come to a close to-day After arguing and trying to persuade them for the past nineteen days, they came to the conclusion that they would not acknowledge Mr Meacham as their chief. This declaration was made in the presence of the military Mr Meacham then told them that he would leave them in the hands of the military, and that they would have to go to the Klamath Reservation, as he would not come to see them again, and that the military would attend to their case in the future. To morrow we are off for Camp Warner to make preparations to winter the band that have concluded to go to the reservation on Spring river

The following are Yamhill county statistics We take them from the *Blade* Number of acres of occupied land, 227,581, assessed at $874,455, owned by 710 persons Value of personal property, $407,989, total assessment, $1,282,444, indebtedness, $452 816, surplus total, clear of debt, $829,625. The levy for 1869 is 17 mills Number of horses over one year old, 2,700 number of mules over one year old, 130, number of cattle over one year old, 4,100, number of sheep young and old, 16,000, number of hogs over six months old 5,700, pounds of wool, clip of 1869, 50,000 pounds of pork, packed, 75,000 Acres of land in cultivation, 30,000 Bushels of grain raised in 1869, (estimated) 600,000, bushels of grain consumed, 30,000 bushels of grain surplus, 570,000. There are three steam flouring mills and six driven by water in the county Of saw mills there are two driven by steam and twelve by water power

THE WEST

The total number of persons assessed for income on the annual list of Washington Territory for 1869, is three hundred and seventeen

J M. Woods, who killed a man named Duffey at Lewiston last July has been convicted of murder in the first degree Day of execution is not yet announced

We now receive the *Daily Tribune*, published at Olympia It is quite a good paper, considering the facilities afforded there for "working up" a daily journal

Considerable interest says the Shasta *Courier*, is now being manifested by the residents of the Fort Crook country in regard to the late coal discovery on upper Pitt river The ledge has been traced a distance of several miles and a number of claims have been located

Quantrell, the leader in the Lawrence (Kansas) massacre, was recently tracked by detectives to San Francisco where he enlisted in the army He was sent to Camp Scott, Nevada An order sent for his arrest reached there too late, he and three others having deserted, taking the best out fit in camp

A Walla Walla paper says One day this week a little child named Kinchele was found dead with a gun by its side and its body It had probably been playing at the wood pile and the log had rolled down upon and killed it This is one of the children of the unhappy couple who some eighteen months ago, came to their death by the hands of the husband, who shot the wife and then shot himself

From the Walla Walla *Union* All the mills in the Valley are busy—the saw mills are overwhelmed with orders for lumber, and there is a scarcity of teams, as they cannot haul it away as fast as it is wanted The planing mills and sash and door factories run all day and very late at night, in order to fill their orders The flouring mills are all busy grinding out flour, which meets with a ready market at the mills, and the distillery is grinding out whisky at the rate of from one hundred and fifty to two hundred gallons per day Lumber, flour and whisky seem to be the leading articles of trade, and so long as the mills at which they are manufactured, and especially the two former, are kept running so long will our country move forward

POLITICAL

A Colonel Hoyt of Texas, Democratic candidate for Congress, evidently counts on the colored vote He says "My niggers are worth a dollar what they were before they were free

The New Hampshire Republicans have shown shrewdness in two things They checked the clamor about taxing United States bonds by taxing them and having the Supreme Court unanimously declare the law unconstitutional They referred the State constable act to the people and it was overwhelmed by negative votes

The Legislature of Tennessee has rejected the Fifteenth Amendment The vote in the lower House was twelve ayes to fifty seven noes We shall have the pleasure in a little while of seeing the Amendment crammed down the throat of that State, whose usurping Legislature has rejected a measure which the members pledged themselves to support when seeking an election

The Salem *Statesman* has the following which is very good spoke it has become known to the faithful that four times a week will supply a Democratic organ with paper at this point there is some prospect that an electioneering fund can be raised to buy two bundles of paper, and so carry the *Statesman* through the next campaign There is some life and energy left in the old party after all

The Denver *Tribune* states that the Territorial Legislature will meet in Denver on Monday the third day of January next, and continue in session forty days The members receive eleven dollars per day, each, as a salary, and three dollars for every twenty miles of travel The Territory—the people—pay nearly half this sum and the United States the remainder Presiding officers receive seventeen dollars per day

News from Texas to a late date shows a most favorable change for the Davis ticket The expected effect of the Yerger decision did not come off and as a result the Union men feel stronger and more determined A large assortment of stump orators of all colors are now visiting all parts of the State, and unless there shall be an order a consolidation of the opposite factions the Republicans are very sanguine of success

The Olympia *Transcript* repeats the falsehood that the *Transcript* by asserting that the Democrats purchased and caused the election of a Democrat to Congress in Washington Territory in 1864 We refuted this slander when it was first uttered by the *Transcript*, and need say no more about it now, except to remark in a general way that it seems as impossible for an Olympia paper to get along without lying as for a Washington Territory politician to preserve a consistent record

The New York *Herald* discusses the West Indian question in its usual "slashing" style It says "At all events we expect that in the forthcoming message of the President to Congress we shall have such recommendations bearing upon both the islands of Cuba and Hayti as will speedily result in establishing the independence of the one, as a beginning, and the annexation of the other Two States from the island of Hayti one from Dominica, the Spanish speaking and mulatto republic, and one from the Haytien, the French and black republic—will have to be organized, and looking to 1872, they will be quite an acquisition to the party in power at Washington, as will also be the State of Cuba"

FRESHEST GLEANINGS.

The last new word in the New York vocabulary is "jimfistism"

It is predicted in Washington circles that the approaching session of Congress will be a very long and exciting one

The Census Committee of the House of Representatives will recommend a decrease in the ratio of representation, which will increase the number of Congressmen.

Captain Jinks of the Horse Marines has been superseded in command of the Fool's Brigade by "Shoo Fly, Don't Bodder Me," which humorous ditty is now one of the idolatries of Gotham

Philadelphia is called upon to appropriate the sum of $1,344,216 for the expenses of supporting her public schools for the year 1870 This sum does not include the cost of fuel, light, cleaning, repairs, etc, which with books and stationery, are estimated at $575,000 more

It is understood that some very interesting details, personally concerning certain members and supporters of the late Administration, will be smoked out, in the course of the current proceedings to enforce the Federal claims for the purchase money of Southern railways.

The Bible question in the schools of Cincinnati is said to have reached a sort of dead-lock in the Courts The litigation which has been commenced cannot reach an issue until some time this month, and will then be taken up to the Supreme Court *en banc*, to hang there, perhaps, until past the mid winter.

The December *Galaxy* will have an elaborate article on "Journalism," by Richard Grant White, who can speak from a very extensive knowledge of the "inside history" of newspapers Theories of journalism are getting very numerous The journalist of the future is just as likely to upset all of them as not.

The mackerel fishing in the bay of St Lawrence is about over and all the Gloucester vessels, numbering about sixty, are on their way home The whole number of fares landed at Gloucester is one hundred and sixty two. The catch has been very light, not averaging as much as past seasons. Bad news for mackerel eaters.

A Chicago paper tells a story of election night which it thinks shows the enterprise of the young Chicagoese A parcel of boys were seen gathering together the material for a bonfire When they were asked what was the news they replied that they had none "We don't dabble in politics We built the fire so that when the news comes we can roll it out to the side that beats!"

The St. Louis papers give the shocking details of the fall of a female performer on the flying trapeze in that city The unfortunate creature fell thirty five feet on an orchestra chair and a music stand, breaking both arms and badly injuring herself otherwise Can there not be legislation to prevent such dangerous feats in public? At present we cannot boast very loudly of our civilization while such risks of life and limb are allowed for the amusement (?) of the public

Our new Minister to China has a little daughter who wept bitterly on hearing of his appointment, and exclaimed "I don't want you to go China, papa, where you will have to live on the pig's nose and rats that men carry around on poles I know they do, for there was a picture of one in my geography

The *Olympian* [illegible] thinks Little P. Ritz a great man It says the Oregonian has attempted to crush him because he is a mighty man in the Northern Pacific Railroad enterprise to which it is alleged the Oregonian is opposed So that in case Little P. Ritz is crushed the Northern Pacific railroad fails! It all depends on him"

And now comes still another soldier of the Revolution This one's name is John Hitts, and he resides in Boston He says he is 107 years old, and he prays the city council to grant him an appropriation sufficient to defray his cost of living, as he is in indigent circumstances, and is now living upon the bounty of his friends

A New York paper publishes a biography of Jim Fisk, in which, among other things, it is said that when years ago, the inchoate Prince of Erie lured his father to a salary of $5,000, he said to him "I want you to distinctly understand that you are my clerk and I don't want you to put on the airs of your dead—d airs and that the aforesaid father is now in an insane asylum.

COMMON COUNCIL.—Wednesday evening Dec 1 1869, the Common Council of the City of Portland met at the usual hour, his Honor Mayor Caldwell, presiding.

Present, Councilmen Bills Brook, Lewis Morgan, Ripley

Journal of the last meeting read and approved.

PETITIONS, MEMORIALS ETC.

Petition of James H Wilbur for leave to allow fence to remain partially in the street was read and referred to the committee on Streets and Public Ways.

Petition of Joseph Knott, for the passage of an ordinance appropriating all that part of Block 41 lying between Front street and the river, for purposes of a ferry landing was read and referred to the committee on Landings and Wharves.

G. Wilhelm Besser and Porter appeared and took their seats.

REPORTS OF OFFICERS

The reports of the Recorder and Marshal for the month of November and the Auditor's report for the same, were read and on motion placed on file.

The Marshal reported that a gas lamp was necessary in the City Jail. On motion, the Marshal was instructed to have such lamp constructed.

CLAIMS AGAINST THE CITY

Warrants were ordered drawn in payment of the following claims: L Anderson $47 17; J F Caples $9 00; H. M Hudson, $1 80; A B Stuart, $1 60, Portland Gas Light Company $20 00; O. A. H. Stevenson, City Surveyor, $100; [illegible] $388 50, Eagle Foundry, [illegible]

ALLOWED FOR NOVEMBER.

C. Caldwell, Auditor, $150; J F Shartle, City Attorney, $75; Philip Saunders, City Treasurer, John Donovan, Deputy Marshal, [illegible] P. Sisko, Deputy Marshal, $100, C F Coffin, Engine House, $40, Blumauer & Frank, rent of Council Chamber, $50, W Wilson, $30 50, John Wesley, $6

ORDINANCES.

An ordinance creating an additional police district in the city of Portland, read a first and second time and laid over.

An ordinance declaring the probable cost of grading Morrison street from First to Twelfth streets, and second time, rule suspended, or read a third time and passed.

An ordinance making an appropriation out of the North Seventh street fund, read a first and second time, rule suspended, ordinance read a third time and passed.

An ordinance making an appropriation out of the North Seventh street fund, read a first and second time, rule suspended, ordinance read a third time and passed.

[illegible] ordinance declaring the probable cost of [illegible] from B to D, [illegible] and second time, rule suspended, or read a third time and passed.

An ordinance making an appropriation out of the North Seventh street fund, read a first and second time, rule suspended, ordinance read a third time and passed.

[illegible] was given that the Common Council would open Caruthers College street.

The roll for the year 1869 having been returned by the City Assessor, the Auditor was ordered to give the usual notice, allowing until Jan 1, 1870, for the correction of the same.

The Assessment Roll was received from the committee on Ways and Means, and on motion was reconsidered, and the Committee on Ways and Means was instructed to confer with the Auditor and Assessor upon the correction of the Assessment Roll if they deem it necessary.

The Council adjourned.

CITY CENTER.—To-night Mrs Carter takes benefit, the first of the season, on which occasion the [illegible] drama of "The Sea Waif" is to be played for the first time in this city. This is the play which has had a wide run in San Francisco, the city where it has ever been produced to-night ought to bring out a large audience of friends. Mrs Carter has labored assiduously to please the public, and they have received from the [illegible] ter open. The public has had first class plays, produced in good style [illegible] In most towns [illegible] supplied at all, the same play is frequently [illegible] seven nights, as they have been at Ordway's with very few exceptions [illegible] Determined to [illegible] Mr Carter has also striven hard and [illegible] with Mrs. Carter in the leading [illegible] a crowded house.

FIRE.—On the 13th ult, G. H. [illegible] Agent of the Western Union Telegraph Co, sent the following dispatch over the line to [illegible] on to the Sound:

"[illegible] Victoria and beyond, has been [illegible] of existence. The deficit this year [illegible] owing to fires. It was very [illegible] to cope with the cedars. [illegible] A liberal paying business for a good white [illegible] to keep up communication in addition is still in force. Are the people between [illegible] enough interested in the matter to [illegible] Unless some [illegible] and known, take public communications [illegible] off Portland."

[illegible] No. 750.—An Ordinance to establish the [illegible] of Sixth street.

The Common Council of Portland does ordain as follows:

Section 1. That the grade of Sixth street be and is established at the following heights: At Hall street 1.20 feet above the base of grades; at Harrison street 1.20 feet above the base of grades.

Section 2. All parts of Ordinances or Resolutions in conflict with this ordinance are hereby repealed.

Passed the Common Council November 24 1869.

W S CALDWELL, Auditor and Clerk.

Approved November 30, 1869.

B Goldsmith, Mayor.

THE STEAMBOAT DEDICATION.—We understand that [illegible] the limited capacity of the Sixth Street Squadron of invitation and admission will be issued, [illegible] to gain admittance a ticket will be necessary, in [illegible] case of strangers at least. The Mayor and members of the Council have been invited and will be assigned [illegible] as guests of the persons connected with the [illegible] quarters and members of the press have been [illegible] invited. Each ticket will bear the number of [illegible] to which the holder will be entitled. We do not [illegible] tickets will be absolutely necessary in all [illegible]

[illegible] wishes to meet all his former pupils [illegible] this city, belonging to the First and Second Classes, at [illegible] hall this evening at 8 o'clock.

ORO FINO THEATER.—The very laughable comedy of Married Life was played last evening to a rather small but an appreciative audience. The several characters were sustained with admirable spirit and every body to the audience seemed particularly well pleased. We scarcely know to whom to give the greatest credit where all did their parts so well. Mrs Carter as usual was lively, vivacious and spirited even in her griefs, as Mrs Candle. Miss Cummings was very correct. Mr. [illegible] was immensely comic; Mrs Bird and Mrs Lipdis were better than usual and Mr Hilarion as Candle "came out strong." The entertainment concluded with the farce of The Loan of a Lover. To-night the great spectacular drama of "The Sea of Ice."

BUSINESS UP THE COLUMBIA.—The Walla Walla Union says: The steamer is making three trips per week to Wallula and comes well loaded. Everybody is anxious to get their goods up as soon as possible for fear that the river will close up. From present indications that will not be for several weeks yet, if at all this winter. These goods are purchased mostly of Portland merchants. Three steamer loads a week to Wallula indicate a very considerable trade to eastern Oregon and Washington. The fact is there are few people who fully realize the huge proportions to which Portland wholesale business has attained.

PROF PLUMMER'S PROGRAMME.—Mr Plummer will give his audience to-night the following programme: Absalom Willis Maud Muller (by request) Whittier Courtin Patty Bigelow Anon The Raven Poe, Some Lonely Dingo Bound Der Drunk, Gottlob Klyboerog seeb heitzuthelmenberglier The Last Land O W Holmes Song of the Shirt, Hood, Harp Us a Thousand Strings Anon Thanksgiving Dinner O R Dodge The Sister Nancy Ar n Wedlock (Matrimo lbebrate real) Sanders Admittance fifty cents. Tickets for sale at the cigar store, Postoffice, and at the door.

ASTORIA.—By the arrival of the Astoria steamer we learn that the brig *Waller Raleigh* was still in the Columbia river Tuesday morning the weather being too foul for her to return out without a tug. The *Fulkinburg* went out on Saturday. The tug boat *Astoria* had not yet arrived. A three masted vessel supposed to be the *Heaton* was due from New York, has been for several days off the bar. The pilot boat went out Tuesday morning to bring her in. The *Moses Taylor* went over the bar on Sunday morning.

CIRCUIT COURT—UPTON JUDGE.—Proceedings of Wednesday Dec 1st

B S Boydston vs J B Giltner action for damages for mal practice trial concluded verdict of jury for the defendant. The jury was but only about twenty minutes.

State of Oregon vs Ah Wan and Ah Chu jointly indicted for murder in the first degree; motion for separate trial granted.

State of Oregon vs Ah Wan jury empannelled and a part of testimony taken.

INSTITUTION OF A GOOD TEMPLAR'S LODGE.—Mr C Bogt Grand Worthy Chief Templar of Oregon and Washington organized a lodge of Good Templars at Mt Tabor in this county on Tuesday evening called Mt Tabor Lodge No 104. The lodge starts on its career with thirty three charter members including a considerable number of the leading men in that part of the country. Mr B Clute is the W C T. Q W Guy Secretary; and Miss Mary Kerns Worthy Vice Templar.

THE STEAMER CARRIE.—This steamer arrived from the Cowlitz Tuesday night. She got off the gravel bar where she got aground on the 21st ult. Monday morning having been high and dry ashore for a whole week. She had to be launched on ways and moved a considerable distance. The boat received no damage the delay and the launching being the principal bills of expense on her overland trip.

LIBRARY MEETING.—The regular monthly meeting of the Catholic Library and Christian Doctrine Society will be held at the rooms this (Thursday) evening 2d inst., commencing at 7.30 o'clock. Members will please observe this is the last regular meeting during the year and those in arrears are requested to call on the Treasurer.

PRICE CHANGED.—It will be seen by advertisement under head of new to day, that the ladies of the First Baptist Church have changed the place of holding their festival on Friday evening next to Armory Hall on Stark street, between First and Second streets.

THE WEBFOOT TO SAIL.—The bark *Webfoot* Capt Goldfrey, will leave this afternoon for down the river. She is to take in about one hundred tons flour and wheat at Springville, and will then have a total of over 600 tons produce for San Francisco.

PERSONAL.—Mr Owen Wade, of the Oregon City Land Office, went up to the Dalles yesterday on official business to meet some settlers who preferred to pay his expenses up rather than their own down. He will be absent several days.

GO AND LAUGH.—Mr Plummer will orate again tonight at Harmony Hall on various subjects, but particularly on the "Harp of a thousand strings." Everybody who can appreciate and laugh at a good thing should go.

AT THE LAKE OF COMO.—Letters have been received from Capt R R Thompson who, with his family at the date of writing, was at the Lake of Como. He expects to return to Paris about the first of January.

G A R.—The Portland Post of the G A R will meet at the upper hall in Dr Poppleton's building at 7 o'clock next Friday evening Dec 3d. A general attendance of all Comrades, is specially requested.

CIDER AND FRUIT.—This office is indebted to Messrs Oatman & Co., for a big jug of sweet cider and a lot of fruit.

MUSIC ON THE PLAZA.—The Infantry band attracted an immense crowd of people to the Plaza yesterday.

CONGRESS meets the first Monday in December, when the President's annual message will be read, which will make some good suggestions and bring to light some startling facts, but none so truthful as the fact that KOHN & FISHEL are selling the handsomest most stylish and durable Clothing and Furnishing Goods for less money than any other house in Oregon.

Their Stock of Dry Goods is offered at cost to close that line of Trade.

The subjoined correspondence sufficiently explains itself.

PORTLAND, Oregon Nov 15 1869

MESSRS EVERSON & HAINES, General Agents New England Mutual Life Insurance Company, Boston

Gentlemen.—On my own behalf and in the name of my orphan children, I beg to thank you, and through you the New England Mutual Life Insurance Company of Boston, for its munificence in paying me my terminated policy on the life of my husband. On the 31st January 1850, misfortune compelled me to forego the payment of the last premium—which non payment in any other company would have lost me my policy—but I am now overjoyed with the receipt of the amount of the policy (less the amount of the unpaid premium only), thanks to the equity of the Massachusetts Lapse Laws, that must bless many widows and their children. I recommend the New England Mutual to all who would provide against possible misfortune. Sincerely thank you again, gentlemen, for the payment, and also for your generous and gentlemanly assistance in the matter.

Respectfully, BETSEY MILLER

PORTLAND, OREGON, Nov 15, 1869

MESSRS. EVERSON & HAINES, General Agents of the New England Mutual Life Insurance Company of Boston

Gentlemen.—Having taken a lively interest in the affairs of the large and destitute family, left by an old resident of this city, who died Aug 2, 1869, and who was insured in the New England Mutual Life Insurance Company, we take pleasure in making the following statement for the information of the public:

A E C. Miller was insured by ordinary Life Policy No 13,054, bearing date January 31, 1868. He paid annual payments to January 31, 1868, inclusive. Since then nothing has been paid. He died August 2, 1869, over eighteen months after last payment of premium, yet your company working under the Equitable Lapse Laws of Massachusetts, pays the widow and orphans the whole policy, deducting only the premium due; while in all other companies doing business here, about which we know anything, the policy would long since have been forfeited.

By the New England Mutual, the widow has been paid $4,650 50. This we consider magnificent, more especially when we take into consideration that the family would otherwise have received a cent from any other company doing business on this coast. This in our estimation is enough to recommend this company above all others. This is Equity, this is Mutuality. We, therefore, commend this company to the public, as the only company that has no forfeitures.

We herewith inclose you the acknowledgments of the widow.

Respectfully yours etc

What is a Tonic?

Bear this in mind—that although a tonic is a certain extent a stimulant—a stimulant unmodified by any medicinal substance is not a tonic, but a DEBILITANT. In HOSTETTER'S STOMACH BITTERS there is a stimulating element of the purest grade manufactured in this or any other country. Every fiery and corrosive oil or acid which contaminates the ordinary liquors of commerce is expelled from the rye spirit which forms the alcoholic basis of the BITTERS by careful and repeated rectification. The juices of the valuable roots barks and herbs infused into this wholesome product of the finest grain still further modify its nature so that it becomes in fact a simple diffusive agent minus all the heady and irritating properties which belong more or less to all liquors in a raw state. It is merely the safe and harmless vehicle which renders the medicinal virtues of the preparation effective—increasing their active power and diffusing them through the system. Hence the pleasant and gentle glow which is experienced after taking a dose of the BITTERS. Instead of creating headache as unmedicated stimulants are apt to do this salutorious tonic is the best known remedy for that complaint. It calms and soothes cerebral excitement, strengthens the nerves, promotes the secretion of the gastric juice, invigorates the bowels determines the fluids to the surface, improves the appetite, increases the natural vigor, regulates organic action, and from its mild yet effective operative qualities is the very best preparation that can be administered to the weaker sex in the peculiar difficulties to which their organization subjects them.

THE PEOPLE SAY

That PRATT'S ABOLITION OIL is the best remedy in the world for the complete and speedy cure of Rheumatism, Neuralgia, Lame Back, Gout, Chilblains, Sprains, Bruises, Stiff and Swollen Joints, Contracted Cords and Muscles, Pains in the Breast and Sides, Nervous Headache, Tooth ache, Earache, Sore Throat, Colic, Cramps, Chills, Morbus, Diarrhœa, and all internal and external aches and pains. Put up in two sizes—Price 50 cents and $1 00. Circulars with full directions around the bottles. For sale by all druggists.

THE BLOOD AND LIVER

Life and health depend on their condition. PRATT'S NEW LIFE purifies the blood, heals old sores, expels from the system all scrofulous humors, cutaneous eruption, and impure matter. It stimulates the Liver and Kidneys to healthy action, regulates the Bowels, cures Piles and Dyspepsia. Persons subject to Bilious attacks, and those suffering from the effects of Fever and Ague, or any injudicious use of Quinine and Mercury will find PRATT'S NEW LIFE invaluable. Price $1 00.

Anecdotes of George Peabody

The Boston *Transcript* publishes a collection of interesting and mostly original anecdotes illustrating the life and character of George Peabody, from which we take the following:

Mr Peabody's great interest in education doubtless partially arose from the fact that he was taken from school at the early age of eleven years, and was thus deprived of what in that day, was known as grammar school instruction. The first money he earned out side of the small pittance he received as a clerk, was for writing ballots for the federal party in Newburyport. This was before the day of printed votes. When Mr Riggs invited Mr Peabody to be a partner the latter said there was one insuperable objection as he was only nineteen years of age. This was no objection in the mind of the shrewd merchant, who wanted a young and active assistant. James Read of Boston was the first merchant who gave George Peabody credit. The purchase was for a thousand dollars, half of it on credit. The amount was promptly paid, and the transaction led to a long business relation and lifelong friendship. Two gentlemen are living who were friends of Mr. Peabody in boyhood, and who willingly paid his share of the cost of sailing and fishing parties, ten-pins, etc., during the war of 1811–14—his excellent company being considered more than an offset to his lack of funds.

Mr. Peabody did not bestow many gifts to relieve individual poverty or distress. He thought that much of the money thus contributed only tended to increase the evil it sought to alleviate. He was a beautiful penman, and his letters were usually brief and to the point. Mr. Peabody was strongly opposed to fraud in little matters. The conductor of an English railway once overcharged him a shilling for fare. He made complaint to the directors and had the man discharged. "Not," said he "that I could not afford to pay the shilling, but the man was cheating many travelers to whom the swindle would be oppressive."

When Mr. Peabody first resided in London he lived very frugally, taking breakfast at his lodging and dining at a club house. His personal expenses for ten years did not average six hundred pounds per annum. Mr Peabody had a very retentive memory, particularly in regard to names and places. He would give the most minute particulars of events that occurred between fifty and sixty years ago. Mr. Peabody first appeared in print as the champion of American credit in England, at the time our state securities were depressed on account of the non-payment of interest by Pennsylvania.

Essex county, where Mr. Peabody was born, has five public buildings erected by his liberality. They are consecrated to the uses of education, science and religion. Mr Peabody leaves a sister, Mrs. Daniels, formerly Mrs. Russell of Georgetown. He has several nephews and nieces, to all of whom he has been very generous. Mr. Peabody was very fond of singing, Scottish songs being his favorites. The favorite games of Mr. Peabody were backgammon after dinner, and whist in the evening. He was as fond of the latter and as vigorous a player as Charles Lamb's friend, Sarah Battle, who neither gave nor took quarter. About a quarter of a century ago Mr. Peabody was much so pleased with an American lady visiting London that he offered her his hand and fortune, which were accepted. Learning a short time afterward that she was already engaged, a fact of which she had kept him in ignorance, he rebuked her lack of sincerity and broke off the engagement.

Mr. Peabody visited, incognito, the houses erected by his munificence for the poor of London to see if those in charge of the charity properly attend to their duties. He asked the wife of the superintendent the name of her child and was answered, "George Peabody." This prompted a present to the infant, which the mother quickly interpreted, and announced to her neighbors the presence of their distinguished benefactor, who gladly took refuge in a cab to be rid of their benedictions.

Letters by the hundred were daily received by Mr. Peabody of late years. They were first looked over by a secretary and only a few ever reached the eyes of the great banker. He received one of thirty-six foolscap pages from a decayed English gentleman who solicited a loan of a few thousand pounds to establish the claims of his family to an estate. Mr. P. wrote in reply substantially this: "That you should have written such a letter, would surprise your friends, that I should have read it, would surprise mine." Chief Justice Shaw paid Mr. Peabody the compliment of remarking that a business document, written by him, was one of the clearest and most comprehensive papers that had ever been presented to our supreme court. By temperament, religious training, early education, political bias and business connections, Mr. Peabody was conservative. The last time Mr. Peabody spoke in public was at the national peace jubilee in Boston. It was a fitting place and occasion for one whose long and useful life had done so much for peace and concord. Several years ago Mr Peabody selected his grave in the beautiful cemetery near his native place, called "Harmony Grove," where the remains of many of his kindred are buried.

HEAGTAND'S

NEW PATENT SHAFT COUPLING!

W. E. COOPER

HAS PURCHASED THE RIGHT FOR THE County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,

Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H. B Heagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that have been used

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongues may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases We consider it far superior to the Brewster Patent, heretofore considered the best in use

INSTRUCTIONS TO BIDDERS AND POSTMASTERS.

Great watchfulness is to be encouraged in the contracts to the extent the Department may deem proper

1 Eleven minutes are allowed as the intermediate office when not otherwise specified for assorting the mails but contractors and steamboat mail agents will be required to expedite them in sufficient time to be in time for the departure of the mail in such cases

2 On railroad and steamboat lines and other routes where the mode of conveyance admits of it, the special agents of the Post Office Department, also post office blanks, mail bags locks and keys are to be conveyed without extra charge

3 On railroad and steamboat lines the route agents of the Department also the British and Canada mails when offered, and the agents accompanying them, are conveyed without charge and for the use of the United States agents a commodious car or part of a car properly lighted, warmed and furnished and adapted to the convenient separation and due security of the mails, is to be provided by the contractor, under the direction of the Department

Railroad and steamboat companies are required to take the mail from and deliver it at the post offices at the beginning and end of their routes and to and from all offices on the line of their routes during such time as the depots may be established by the Postmaster for the performance of all other such service that is to be performed eighty feet from a station house

There will be sent by the proper Department masters of railroad trains of the Department, to accompany the mails conveyed on railroads and to receive, specially charged and call deductions of the several bags for other principal routes, likewise, receipts will be required and way bills forwarded, the latter to be examined by the several postmasters to secure regularity in the delivery of mails

4 No pay will be made for trips not performed, and for each of such omissions not satisfactorily explained three times the pay of the trip will be deducted For arrivals out behind time without connection with depending mails and not sufficiently excused one fourth of the compensation for the trip is subject to forfeiture For repeated delinquencies of the kind herein specified, additional penalties proportioned to the nature thereof, and the importance of the mail may be made

5 For leaving behind or throwing off the mails or any portion of them, for the admission of passengers, or for being concerned in setting up or running an express conveying intelligence in advance of the mail a sum not exceeding the amount of the compensation for the trip may be deducted

6 Since will be imposed unless the delinquency be promptly and satisfactorily explained by certificates of postmasters or the affidavits of other credible persons for failing to arrive in contract time; for neglecting to take the mail from, or deliver it into a post office for suffering it to be wet, injured, destroyed, robbed or lost; and for refusing after demand to convey the mail as frequently as the contractor runs, or is concerned in running a coach, car or steamboat on a route

7 The Postmaster General may annul the contract for repeated failures to run agreeably to contract for violating the post office laws or disobeying the instructions of the Department for refusing to discharge a carrier when required by the Department to do so, for running an express as a mail, or for transporting persons or packages conveying mailable matter out of the mail

8 The Postmaster General may order an increase of service on a route by allowing therefor a pro rata increase in the contract pay He may also, on a reduction of departures and arrivals in all cases not particularly provided for, make them conform to connections with railroads, with out increase of pay, and may curtail the running time not abridged The Postmaster General may also, at his discretion, change the days of departure of any mail, or curtail the service in part or in whole, or may discontinue any post office on the route service, or whenever required by the interests of the public it shall require such diminution or discontinuance, if any other cause he shall wish a full bidding for the service curtailed or discontinued, he will only require the amount of service dispensed with and no pay for any cause for the time such service is limited and discontinued

9 Payment will be made quarterly at the end of each quarter after the service shall have been performed, on the certificate of the Postmaster that he is satisfied with the above requirements and knows them to be men of property, and able to make good their engagements
